

# Work Breakdown

#	Task Description	Total Effort (hrs)	Cost (₹500/hr)	Notes	Reference
1	POS Order Filtering	1 hrs	₹500	UI Update and basic Logic (filtering) <b>6/4/25</b> (whatsapp msg)	
2	POS Order Editing with Delivery and items cart	2.5 hrs	₹1250	Backend & UI update {Editing data fetching and cart items} Ye purana tha <b>23/3/25</b> (google meet)	
3	If the customer chooses Delivery, the system will ask for their 10-digit phone number and an address (up to 80 characters), and these details will be saved in their account for future use.	6 hrs	₹3000	Phele joh mujhe bataya gya tha ki user details save honi chahiye that was completely different it was on <b>11/4/25</b> nd ussi din shayad call pe ye saara discussion hua tha ki aisa nhi chahiye to add new customer just to add there address! So woh dono alag alag chizen hogayi! Plus mera utna time use hua! <b>11/4/25</b> (whatsapp call)	<div>Old</div>  <div>New</div> 
Final Total			₹4,750
